

# THE HEART OF THE MATTER

An Intensive Energy Medicine Workshop

With

## Rosalyn Bruyere

### WORKSHOP DESCRIPTION:

When we speak of the heart we mean both the physical organ and the heart chakra, which is very responsive to energy. The heart receives, energetically, from others and from events that occur around us.

The heart chakra is the middle of a complex system which is responsible for both gross and fine energies and is responsive to both physical and emotional events. Being the primary integrator of the entire system, it can sometimes lose energy to any stressful situation or it can gain energy from love, relationships, beauty, and sensitivity to spirit.

**Rosalyn Bruyere** is an internationally acclaimed healer and teacher who has participated in energy medicine research and trained numerous physicians, nurses, and people from all walks of life. She is dedicated to integrating the understanding of and practice of energy medicine into our current medical systems. Her combined scientific and spiritual focus influences her teaching and serves to bridge the gap between concept and the reality of practicing energy medicine today.

*Don't miss this amazing opportunity to experience Rosalyn Bruyere's teaching, get hands-on training in Rosalyn's energy healing techniques, and enjoy the beautiful healing environment of the Big Island of Hawaii.*

*All are welcome, no experience necessary*
